

[illegible]

The diagram illustrates a cryptographic system architecture. At the center is the 'Cryptographic System' block, which is connected to various external components. On the left side, there is a 'Data Source' and a 'Data Sink'. On the right side, there is a 'Data Sink' and a 'Data Source'. The system is connected to a 'Network' and a 'Storage' unit. The diagram includes various components like 'Encryption/Decryption', 'Authentication', and 'Key Management'. It also shows a 'User Interface' and a 'System Administration' interface. The diagram is a high-level overview of the system's components and their interactions.
